

CAUTION: For continued protection against risk of fire, replace only with same type of fuse having the same electrical rating!

QUICK REFERENCE FUSE CHART

Backbox Fuses

LOC: DISPLAY POWER SUPPLY (P.S.) BOARD

F1	3/4A 250v S.B.	90v DC	High Voltage Display
-----------	----------------	--------	----------------------

LOC: I / O POWER DRIVER BOARD

F6	7A 250v S.B.	50v DC	Primary High Power Coils/Flippers
-----------	--------------	--------	-----------------------------------

F7	5A 250v S.B.	20v DC	Low Power Coils
-----------	--------------	--------	-----------------

F8	5A 250v S.B.	12v DC	Logic Power
-----------	--------------	--------	-------------

F9	5A 250v S.B.	12v DC	Logic Power
-----------	--------------	--------	-------------

F20	3A 250v S.B.	50v DC	Magnets/Aux. (If used, see Manual)
------------	--------------	--------	------------------------------------

F21	3A 250v S.B.	50v DC	Coils
------------	--------------	--------	-------

F22	8A 250v S.B.	18v DC	Controlled Lamps
------------	--------------	--------	------------------

F23	4A 250v S.B.	5v DC	Logic
------------	--------------	-------	-------

F24	5A 250v S.B.	6.3v AC	G.I. Lamps (BRN-WHT to WHT-BRN)
------------	--------------	---------	---------------------------------

F25	5A 250v S.B.	6.3v AC	G.I. Lamps (YEL to WHT-YEL)
------------	--------------	---------	-----------------------------

F26	5A 250v S.B.	6.3v AC	G.I. Lamps (GRN to WHT-GRN)
------------	--------------	---------	-----------------------------

F27	5A 250v S.B.	6.3v AC	G.I. Lamps (VIO to WHT-VIO)
------------	--------------	---------	-----------------------------

F28	3A 250v S.B.	24v AC	Motors/Aux. (If used, see Manual)
------------	--------------	--------	-----------------------------------

Cabinet Fuses

LOC: SERVICE (AC) OUTLET BOX (Cabinet Bottom)

n/a	8A 250v S.B.	115v AC	Main Fuse Line (Domestic or USA)
------------	--------------	---------	----------------------------------

n/a	5A 250v S.B.	220v AC	Main Fuse Line (International)
------------	--------------	---------	--------------------------------

Playfield Fuses

LOC: UNDER PLAYFIELD (near Flippers)

n/a	3A 250v S.B.	50v DC	Rt. Flipper (BLU-YEL ↔ RED-YEL)
------------	--------------	--------	---------------------------------

n/a	3A 250v S.B.	50v DC	Lt. Flipper (GRY-YEL ↔ RED-YEL)
------------	--------------	--------	---------------------------------

n/a	3A 250v S.B.	50v DC	Add'l Flipper (If used, see Manual)
------------	--------------	--------	-------------------------------------
