This file can be used to replace the faded numbers on the large Williams 4" score reels
Just print them on sticky paper.
Long strips are 321x29mm in size, but are split in two parts to fit on A4 sized paper.
The strips are a bit too long, so cut to the right size.

Use the PDF file for printing because of the special font used (Carre.ttf; specially made for me).

Enjoy and have fun,
Peter
