This file can be used to replace the faded numbers on the old Bally score reels.
Just print them on sticky paper.
Long strips are 250x25mm in size.
250mm is a bit too long, so cut to size.

Use the PDF file for printing because of the (special made for me) font used (Number).
Be sure to set scaling to "no scaling" when printing.

Enjoy and have fun,
Peter
