

These images can be used to replace the faded numbers on the old Gottlieb score reels. Just print them on sticky paper (A4 or Letter size). The strips total size should be about 330x29mm. 330mm is a bit too long, so cut to size. Actual size should be 320mm Use the PDF file for printing because of the special font used (Carre.ttf; specially made for me).

Enjoy and have fun,  
Peter
